  Full Stack Developer
- **Kamianets-Podilskyi State University**
  1999 – 2004
  Master, Physics and Informatics

Certifications

- Full Stack Developer
- Basic Web UI development 2022
- DeepLearning.AI TensorFlow Developer

Oleh Luzhniak
Full Stack Developer

Summary

I am a junior Full Stack Developer with a solid foundation in IT education, covering HTML, CSS, JavaScript, React, and Node.js. Throughout my studies, I actively participated in three group projects, taking on the role of Team Leader. Additionally, I independently developed websites and various applications for myself, friends, and acquaintances. I am passionate about continuously learning new technologies and finding optimal technical solutions. Currently, I am seeking opportunities to further my professional growth in software development.

Project Experience

- **Water Tracker** | GitHub | GitHub (Backend)
  [HTML, CSS, JS/TS, React/Redux, Node/Express.js]
  Team Project | Role: Team Lead, developer
